and what have you

by BOB CRAIG

It is beginning to look like this will be a good year to pay your poll tax since several races are shaping up in the area.

Senator David Ratliff announced for re-election this week and indications are that he may have at least two more opponents.

Foy H. Easley of Anson announced this week for the State Legislature, seeking to replace Leon Thurman who is running for County Judge this year. Because of the re-districting of the state, Jones County has been placed in with the district now being served by Carl Wheatley of Haskell who is expected to seek re-election.

There seems to be no shortage of candidates for Governor or Attorney General on the state level.

So, this would be a good year to drop by the BCD office and pay your poll tax and exercise your rights and responsibilities as a citizen.

I am glad it is not normal for us to have cold weather as cold as we have had here on Tuesday and Wednesday. When it gets down to six degrees I am real glad that most of my work is done on the inside on Wednesdays. It is weather like this that takes the glamour out of the livestock business.

TRUETT LATIMER ANNOUNCES FOR STATE SENATE POST

Truett Latimer, Texas Legislator from Taylor County for the last ten years, will be a candidate for State Senator from the 13-county 24th Senatorial District, he announced Wednesday.

He said he will make an aggressive campaign for the office and promised to maintain personal contact with every community in the district. Latimer said he will formally file as a candidate with the individual county Democratic chairmen "in the very near future."

In announcing that he had decided to offer his services to voters of the 24th Senatorial District, Latimer issued this statement: "During my ten years in the legislature, I have served on many important committees and have handled much legislation of local and statewide significance. I believe my experience fully qualifies me for the office of State Senator. I promise the most aggressive, all-out campaign for the state senate that this district has seen in many years. I feel that

the 250,000 people who live in this 13-county district are entitled to representation in the Senate that is not afraid to speak out on issues which effect them. As a candidate and as Senator, I will make myself available at all times—not just on election years—but to every community in the district."

Motorists Warned Of Inspection Deadline, April 15

AUSTIN—The Director of the Texas Department of Public Safety, Col. Homer Garrison Jr., today urged motorists to secure their 1962 vehicle inspection stickers as soon as possible prior to the April 15 deadline.

After that date, vehicles not displaying the new inspection sticker will be operating in violation of the law and the operators of those vehicles will be subject to arrest, he said.

Garrison said approximately half of the inspection period has expired and only about one-fourth of the vehicles in the state have been inspected. Unless the number of inspections is increased appreciably soon, he added, long waiting lines will be forming at inspection stations as the April 15 deadline approaches.

"There are some 4,800 authorized inspection stations in the state and they are ready and capable of handling the inspection of all vehicles without delay if owners of the uninspected vehicles do not wait until the last few days before the deadline," Garrison said.

He pointed out that vehicles inspected so far this year have fewer defects than have ever before noted heretofore. He said vehicle defects contributing to motor vehicle accidents in Texas is the lowest in the history of the state.

No New Leads in Bessire Mystery

Law enforcement officers continue to work on all leads available, but thus far there have been no new developments in the mystery surrounding the death of J. C. Bessire, according to the Hamlin Police Department.

Efforts are being made to locate a young negro serviceman who was seen with Bessire shortly before he was reported missing on Christmas Eve afternoon.

Witnesses have been found who saw a man fitting the description in Aspermont around

noon and in the afternoon of that day and also on the highway leading to Anson.

Officers are asking the aid of anyone who might have seen or given him a ride between any of these points.

When Bessire failed to return to his home after completing his job at the City pump station his wife notified authorities and the search was begun. His body was found Wednesday morning near his abandoned car on a farm road in the Hanna Community. According to Justice of the Peace Albert Story in Anson, death resulted from a blow on the head and exposure.

DAVID RATLIFF ANNOUNCES FOR RE-ELECTION TO STATE SENATE

State Senator David Ratliff of Stamford this week announced for re-election as Senator for the 13 county 24th Senatorial District, which includes Jones County.

Before his election to the Texas Senate, Ratliff was elected three times to the House of Representatives. He was elected to the Senate in 1954 and re-elected in 1958.

It is generally recognized that a Senator's usefulness to his state and district is immeasurably increased by seniority. With several members of the Senate retiring this year, Ratliff's eight years of seniority will be invaluable to the people of this district.

Senator Ratliff is highly regarded by his fellow Senators. Last year, as a token of their respect and esteem, they elected him President Pro Tempore of the Senate, the highest honor of the Senate can confer on one of its members.

Ratliff now serves on 12 Standing Senate Committees including some of the most powerful in the Senate. In addition, because of his steady influence and demonstrated interest in sound government, he has been appointed to such key interim study groups as the Tax Study Commission, the Cost of Government Study Committee, the Legislative Budget Board, and a special committee to study the problems of the aging. Based on the broad knowledge of state fiscal affairs, gained from his wide experience as a member of these several committees and agencies, Senator Ratliff says that he sees "no need whatever for further state tax in-

creases anytime in the foreseeable future." He does insist, however, that amendments are definitely required to remove inequities and to simplify collection of the sales tax.

"Recent experience has proved that this law should be corrected to prevent certain injustices and to eliminate unnecessary complications," Ratliff said.

Senator Ratliff's primary legislative interest through the years has been the major problem of West Texas—water.

He has co-authored legislation making water available to the cities of Abilene, Anson, Albany, Breckenridge, Hamlin and Stamford. He has also co-sponsored legislation creating the White River Authority which will bring an adequate supply of water to Post and

CHICAGO—"The jazz" is slowly but surely going into the discard, according to a statement issued here by Denton Bott, of Dayton, Ohio, Director of Dance Reform of the American National Association Masters of Dancing. "The Fox Trot" is the dance that receives the most abuse by the dancers," said the statement, "and it is the Fox Trot music as written and played in 'jazz' fashion, that causes the dancer to abuse this popular dance. There is nothing wrong with the Fox Trot or the steps in the Fox Trot, but it is a conceded fact among all teachers of dancing that the Oriental suggestiveness and broken time in the Fox Trot Jazz music, together with the lack of sufficient supervision, is responsible for the downward trend of the Dance. We all feel and hope that the crest of the wave of this disgusting wriggling 'Jazz' has been reached and reports to us from every part of the country show 'clean dancing' crusades being started everywhere. All exaggerated movements, especially of the upper parts of the body, are in very bad taste in social dancing, and are never found with true refinement and culture."

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

AUSTIN — Talk of ending the special session of the Legislature on its opening day turned out to be just talk. When the lawmakers got to town at Gov. Price Daniel's call, little support could be mustered by Sen. George Parkhouse of Dallas and Rep. Charles Ballman of Borger, for immediate adjournment. So, the show is on,—and already moving at a fast pace. Governor Daniel immediately laid out his proposals for solving some long-standing problems. Included were the following: BANK ESCHEAT: Here a compromise with bankers was sought, under which banks would advertise locally each year for the owners of accounts which had as much as \$25 in them and which had been inactive for seven years. Balances under \$25 would be sent to the State Treasury which would seek the owners, and if they appear, pay them from a \$100,000 revolving fund which would be kept in the Treasury for that purpose. Rep. Charles E. Hughes of Sherman, who has worked for 10 years to get laws to enforce the escheat laws, felt that ground had finally been found on which the state and the banks could agree. RURAL ROADS: Governor Daniel's veto last summer of the \$45,000,000 appropriation for farm-to-market road construction during the year starting next Sept. 1 was designed to bring another long discussion to a head. It did. Where \$29,000,000 was available in 1961 (\$33,000,000 in state taxes and \$10,000,000 in federal aid) for construction and improvement of rural roads, Daniel proposed that on Jan. 1 the First Methodist Church in connection with Youth Day at the church. Morrison of Cameron has announced for re-election to the Court of Criminal Appeals, on which he has served for 11 years. District Judge Otis Dunagan of Tyler has announced against him. RECIPROCAL PRIVILEGES—Texas Game & Fish Commission has decided to revive efforts to get reciprocal fishing privileges on the border rivers and lakes. Neither the Texans on Lake Texoma nor the Louisians on Lake Caddo can tell where the state line is. Sometimes they get fined by the other state's game wardens for not having a fishing license. Time and time again negotiations have been begun, only to have the idea shelved when officers were changed and the new ones didn't pick up the ball. This time, Chairman Frank Wood of Wichita Falls will go to Oklahoma to start talks there. Henry LeBlanc, president of the Sportsmen's Clubs of Texas, will try to get things rolling in his position as Southwestern director of the National Wildlife Federation. NEINDA PHILOSOPHER AMAZED TO FIND OUT HOW MUCH TELEPHONE CONVERSATION GOES ON IN THE U. S.

Editor's note: The Neinda Philosopher on his Johnson Grass farm on Route 1, Hamlin last night that the telephone company has counted all the telephone conversations that took place last year and found that every man, woman, and child in the United States had an average of 520 conversations on the telephone. When you consider that there are several million babies too young to talk, that there are a lot of people who don't have a telephone, that a lot of people, like farmers for example, can't be reached by phone during the day time and don't stay up very late at night, when you consider all this, you begin to realize that in order for the average to be 520, somebody had to do a mighty lot of talking on the phone to run the total up. In fact, I calculate some women had to talk at least seven or eight thousand times to get the average up so high, and what puzzles me is how do they do it? I don't mean how do they find anything to say. Talking on the phone for some people is like making a speech is for others—you don't have to have anything to say. But what I mean is, how do they find the time to do it? To talk seven or eight thousand times a year on the phone, you'd have to make more than 20 calls a day, seven days a week, and when you consider that it's a mental and physical impossibility for some women to talk less than ten minutes on any given call and with around 30 minutes being classified as only a short chat, I don't see how they do it. And you've got to remember that in between all these calls, the same women must have tried a few thousand more times and gotten busy signals. There are some things in life nobody will ever figure out. Yours faithfully, J.A.

WTU's outlook for 1962 is for even more...

- In this new year, West Texas Utilities will continue our three-step area development program.
1. We will continue our own current expansion program to permit us to serve even more people.
 2. We will continue to promote the business and industrial advantages of this area in national publications.
 3. We will continue to work with all area communities in their local development programs.
- This is our 1962 schedule, because more than ever our service area faces GROWTH UNLIMITED.

So much car for so little money deserves a medal... (and that's just what it got!)

CHEVY II WINS AWARD FOR ENGINEERING EXCELLENCE!!!

This is the Nova 400 Sport Coupe, just one of 11 Chevy II models you can pick from.

The men who know cars best put Chevy II to the test. And, after they had compared it with the rest of the '62 crop, the editors of Car Life magazine picked Chevy II for their coveted Engineering Excellence Award. Why? Here are some of the reasons in the editors' own words: "The Chevy II, in either 4- or 6-cylinder form, represents an important development in the American automotive field. The car is maximum transportation at

minimum cost..." And throughout the editors' reports on the engineering and road testing you'll find accolades like "easy maintenance"... "long wearing ruggedness"... "simple elegance"... "reasonable size"... "delightful car to drive." Get the full story in the February issue of Car Life. Better yet, see your Chevrolet dealer. See for yourself why luxury and low price have never been more beautifully blended!

MISS WALDON, D. C. SHIVERS EXCHANGE DOUBLE RING VOWS

The bride, the former Gloria Arlene Waldon, is the daughter of Mr. and Mrs. R. C. Waldon and the bridegroom is the son of Mr. and Mrs. L. W. Shivers Jr.

The couple was married in the Methodist Parsonage by the Rev. L. W. Shivers Sr., pastor of the First Methodist Church of Tehuacana. The double ring ceremony was read at 4 p.m.

Anna Adams was maid of honor, Jimmy Shivers was best man for his brother.

The bride wore a white faille trimmed with white lace at neck and sleeves. Her white hat was accented with rhinestones and held a brief veil. She carried white carnations arranged on a white Bible.

The maid of honor's sheath dress was fashioned with an organly overskirt. Her flowers were white carnations.

The reception was held in the parsonage with Mrs. L. W. Shivers Sr. as hostess. The bride's table was centered with an arrangement of yellow and white carnations and chrysanthemums.

For a wedding trip to Waco the bride was wearing a beige two piece suit with beige and white accessories.

The bride attended Hamlin High School where she was a member of the pep squad, Sophomore class favorite, the freshman lady-in-waiting and lettered two years in basketball and volleyball.

The bridegroom, a 1959 graduate of Hamlin High School, attended McMurry College in Abilene, where he pledged IHR, and attended North Texas College, Denton. He is now employed by B. A. Duffey Drill-

ing Company of Abilene. The former Miss Waldon was honored with a gift tea in the home of Mrs. Richard McClung December 20.

The table was covered with a white net and satin cloth and was centered with an arrangement of white and gold, the bride's wedding colors. The gold and white theme was used in decorations throughout the home.

Hostesses for the event were Mmes. McClung, W. Wallace, Phil E. Smith, C. Weldon Griggs, Thomas Ferguson, Weldon Johnson and Mrs. Stanley Carmichael of Abilene.

Members of the houseparty included Mrs. Sam Bryson and Mrs. Herbert Lakey, sisters of the bride, Thelma McClung, Pamela Smith and Dorothy Gray.

HD Agent Reports On New Type Pans

Something new on the market is black bottom pans, says Mary Y. Newberry, Jones County Home Demonstration Agent. The speil about the heavy weight aluminum foil cake, pie and pizza pan goes something like this, "You will bake faster and be sure of a good brown bottom crust, if you use—Black Bottom Pans." The black bottoms absorb heat remarkably faster than pans with light, reflective surfaces. When used for cake baking, the oven temperature may be lowered 15 degrees and the time shortened about 5 minutes. Use the usual temperature for pies and all pastries and a beautifully browned bottom crust is certain." The manufacturer goes on to give other uses for the pans and assure the customer that the pans are inexpensive and available in most food markets.

You will probably take this advertising with a grain of salt when you consider (1) You have to change the cooking time and temperature of all your recipes and (2) The pans are expensive at any price, since they probably are good for only two or three bakings.

Sign near a New Jersey intersection: "200 yards to cross road. Better humor it."

"PRISONER OF LOVE": PROS AND CONS

Dear Amy:
I've been reading your column for years and I have never been so taken with any reply as the one you gave "Prisoner of Love." Thanks a million.
The American housewife never had it so good. I'm glad you let them know in no uncertain terms. We work for them, fight for them and love them. And what do they do? They write you and grumble how bad they have it. You just can't please them. Maybe that's why so many of us gave up trying!

An American Husband

Dear Amy:
The only characters who would appreciate your reply to "Prisoner of Love" are husbands.
They finally got someone to tell them they were right. My 'character' will probably never let me forget it.
Thanks for nothing!

Toby

Dear Amy:
You deserve a round of applause for your reply to "Prisoner of Love." It was refreshing to have a woman tell off her own sex for change.

I have traveled over most of the world and if these women could see how other women rough it in foreign countries, they would appreciate their "selfish, inconsiderate husbands."

Traveler

Dear Amy:
I've been married for 12 years. That's a long time listening to complaints. I cut out your answer to "Prisoner of Love" and framed it. It hangs next to my wife's needlepoint of "Home Sweet Home" to serve her as a reminder "How to Keep Our Home Sweet."

Bert

Dear Amy:
Your reply to "Prisoner of Love" was unfair. You're an absolute traitor. I thought we women had to stick together.
It's true we have it better than our mothers but I have yet to meet a man better than my father!

Elsie M.

Dear Amy:
That "Prisoner of Love" who wrote you really threw you a curve ball. But you handled it beautifully. Your answer hit home. My old lady hasn't been on my neck for two days and that's a 25 year record.

John

Dear Amy:
My husband and I are very close with another married couple and several weeks before Christmas, her husband called me and asked that the next time his "little girl" (wife) and I go shopping and she saw something that she liked (but wouldn't buy for herself) that I should purchase it for her saying that it was from him. I thought the idea was novel and romantic and asked him what the limit should be. He said fifty dollars and that he would give it to me.

Now, Amy, I don't walk around with fifty loose dollars in my bag and he's had plenty of opportunities to slip me the money—but he never did. However, I bought her the gift of her choosing with my own money and she was thrilled and surprised that her hubby was so thoughtful.

Her husband has thanked me a million times but has yet to repay me. Should I ask him for it or wait?

Estelle

Dear Estelle:
Certainly ask him for it. At this late date, why wait?

Dear Amy:
I have asked three of my teachers and my parents what a hypocrite is and I got four different answers. What in your opinion is a hypocrite? Thanks.

A Freshman

Dear Freshman:
Here goes opinion #5. A hypocrite is one who sets a good example when he has an audience!

OLD GLORY NEWS--

By SHARON LEVERETT

SCHOOL NEWS

Mid-term examinations were given by the teachers and taken by the students last week on Thursday and Friday. Both days school dismissed at two p.m. when the tests for the day were completed. Needless to say there was lots of cramming done, but from the sound of the grades that were handed back Monday there should have been heaps more. Anyway here we go on the last Semester and school is half over. For some ten seniors there is the realization that their days in high school are numbered and the future looms ahead with uncertainty. For some seven juniors the most pertinent problem is planning the banquet to honor the seniors. I don't know about the sophomores and the freshmen—but their time will come if they stick around long enough.

Tuesday of this week, Mr. Cole, photographer from Abilene, came to take the rest of the special pictures for the annual. This includes "The Most" from all grades in school. Each of the elementary rooms has a boy and a girl representing them. In high school from each grade there is the Most Representative, The Most Talented, The Most Friendly and The Most Handsome (boy). Mr. Cole will also take The Most Popular Boy and Girl in High School. They were Donnie Sawyers and Buddy Tredemeyer.

Monday Mrs. Cecil Klump met with the students who are planning to try for the one-act play. They will try out for parts in a few days. They plan to produce the play, "The Neighbors."

The Old Glory high school boys and girls basketball teams were entered last week in the Jayton Tournament and both came home with beautiful trophies. The girls carried off the first place trophy by winning over Girard, Paducah and then Jayton with the last win being one of the feature attractions of the last night. The boys trophy was for consolation as they lost their first game to Girard but came back to win over Roaring Springs and then Patton Springs. Needless to say the teams, students parents and just everybody are proud of the record made during this tournament. The trophies are the largest ever won

by any students from the Old Glory school before. They look beautiful in the case in the hall. Come to see them!

Waggoner Carr Announces for Attorney General

Waggoner Carr, former Speaker of the Texas House of Representatives, Thursday announced his candidacy for the Democratic nomination for Attorney General.

The announcement from his Lubbock law offices stressed the importance of the Attorney General's office in law enforcement, crime prevention and the creation of a healthy economic climate in Texas.

Carr recalled that in 1960, went to Snyder to see their son, Clois Henry and family.

Mr. Henry has fully recovered from his recent surgery and Mrs. Henry reported that he had gained ten pounds.

Mr. and Mrs. Winsen Gray and Dorothy, visited with his sister, Mr. and Mrs. John Key of Anson, Friday night.

Mr. and Mrs. Mel Jones visited with his brother, Newman Jones, in Stamford Sunday afternoon.

after two terms as Speaker, more than half million Texans approved his record of public service by their votes in this race for Attorney General and said he believes his previous training and experience qualify him to do a good job. Carr was identified in a recent statewide poll as the leading contender for the Attorney General's post.

"My platform basically has but one plank—strengthening our legal framework where needed, and more vigorous enforcement of those laws, once enacted," Carr declared.

The 42-year-old former law-maker and law enforcement official revealed plans for an intensive campaign leading up to the Democratic primary. He promised detailed discussion of the issues as the campaign develops.

"Much of the character and quality of Texas life for our families, our children, our businesses, workingmen and farmers will depend upon the example of alert and responsible conduct of the Attorney General's office," Carr said.

the
RIGHT
LIGHT

THE PROFESSIONAL PHOTOGRAPHER
gives careful thought and study to lighting his
subject. Contrasts must be right and reflections
must be right to achieve the best effects.

Individuals' lives reflect how they think and what
they believe. Our lives count most, when we attend
church regularly and walk in the light of the Lord.

The Church is God's appointed agency in
this world for spreading the knowledge of
His love for man and of His demand for
man to respond to that love by loving his
neighbor. Without this grounding in the
love of God, no government or society or
way of life will long persevere and the
freedoms which we hold so dear will in-
evitably perish. Therefore, even from a
selfish point of view, one should support
the Church for the sake of the welfare of
himself and his family. Beyond that, how-
ever, every person should uphold and
participate in the Church because it tells
the truth about man's life, death and
destiny; the truth which alone will set him
free to live as a child of God.

200 PROJECTS COMPLETED UNDER STATE HOSPITAL AID

AUSTIN—Over 12,000 general hospital beds, 550 beds for mental patients, and 350 nursing home beds have been made available to ailing Texans by virtue of a financial partnership in which the state has participated since 1947.

The opening of a cerebral palsy treatment center in Houston in mid-1961 brought to nearly 200 the number of projects completed in Texas under the Hill-Burton hospital and medical facilities survey and construction program.

Established by the Hill-Burton Act of 1947, the program is a unified local-state-federal effort to provide financial assistance to areas with the greatest need for supplementary hospital and medical facilities.

Guided by the 9-member State Board of Health, the program is administered in Texas by the Division of Hospital Services at the State Department of Health, under plans recommended by the State Advisory Hospital Council.

Fund grants up to 50 percent of total construction costs for general, mental, tuberculosis and chronic disease hospitals, public health centers, diagnostic and treatment facilities, rehabilitation units, and nursing homes may be made under the program. The balance of construction costs must be provided locally.

To be eligible for Hill-Burton assistance, a facility must fulfill a community need and must be sponsored by a private nonprofit organization, or by a city, county, state or other political subdivision. Projects may consist of completely new buildings or the remodeling or enlarging of existing facilities. Texas began its participation

in the program with the construction of the Demmitt Memorial Hospital in Carrizo Springs, a 28-bed general hospital which opened September 3, 1949.

Since then, construction has been completed on 162 nonprofit hospitals with the assistance of Hill-Burton fund grants.

In addition to these finished projects, nine rehabilitation units, 12 public health centers, and nine diagnostic and treatment centers have been put into operation.

The program has also provided financial assistance toward the purchase of special equipment for five laboratories and hospital improvement projects. (A weekly feature of the Health Education Division, Texas State Department of Health.)

Johnny F. Law Back from Berlin

MANNHEIM, GERMANY — Army PFC Johnny F. Law, son of Mrs. Gene Tiller, 7937 Claremont st., Dallas, is a member of the 8th Division's 1st Battle Group, 18th Infantry, which recently returned to its home station in Mannheim, Germany, after some four months of bolstering the Allied garrison in West Berlin.

Law and other members of the battle group were ordered to the beleaguered city in August and traveled through Soviet controlled East Germany in U. S. Vehicles. They have been replaced by the 24th Division's 19th Infantry.

Law, an automatic rifleman in the infantry's Company B, entered the Army in June 1960, completed basic training at Fort Hood, Tex., and arrived overseas last July.

The 18-year-old soldier, son of John F. Law, Route 1, Hamlin attended W. W. Samuels High School, Dallas.

Celotex Corp. Issues Annual Report to Owners

CHICAGO—For the fiscal year ended October 31, 1961, net sales of The Celotex Corporation were \$61,804,011 and net income after taxes amounted to \$1,362,104, consisting of income from operations of \$712,684 and special net nonrecurring gains of \$649,420. Net sales for the previous year amounted to \$67,964,618 and after-tax earnings were \$2,087,128.

In the annual report to the stockholders, Henry W. Collins president, said that earnings per share of common stock on the 1,028,651 shares outstanding amounted to \$1.07 for 1961 after preferred dividends, compared with \$1.78 per share a year ago. Better than half of the decline in sales for the year was the result of the company's decision to discontinue the production and sale of asphalt roofing products in the Middle West, he stated.

"In 1961 we shipped a greater footage of fiberboard products, our principal line, than we did in the previous year," Collins told stockholders. "This increase, however, was not correspondingly reflected in our dollar sales because of the highly competitive prices which prevailed during the year."

"With the comparatively low level of housing starts, which failed to improve during our fiscal year, there was an excess of manufacturing capacity in the insulation board industry in which we are the largest producer," he added.
